

MEP SERVICES DESIGN CRITERIA & TECHNICAL SPECIFICATIONS

Electrical, Plumbing, Fire Fighting, STP & Sustainability Infrastructure

Public Health Engineering:

- Underground and Overhead Water Storage Tanks with dedicated domestic and fire-fighting reserves
- Hydro-pneumatic pumping system, gravity distribution, CPVC/UPVC piping networks
- On-site Sewage Treatment Plant (STP) with tertiary filtration for landscaping and flushing reuse
- Comprehensive Rainwater Harvesting (RWH) recharge pits compliant with Kerala municipal bylaws

Electrical Infrastructure:

- Dedicated distribution transformers, main LT switchgear panels, energy-efficient LED luminaires
- Diesel Generator (DG) standby power backup for lifts, fire pumps, water supply, and common lights
- Lightning protection per IS/IEC 62305 and low-resistance copper plate grounding system
